

INTERNATIONAL SEARCH REPORT

International application No
PCT/GB2005/050219

A. CLASSIFICATION OF SUBJECT MATTER
INV. G06F17/16 G09G3/32

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
G06F G09G

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the International search (name of data base and, where practical, search terms used)
EPO-Internal, INSPEC

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	LIU W ET AL: "Existing and new algorithms for non-negative matrix factorization" FINAL REPORT CS 383C PROJECT, DEPARTEMENT OF COMPUTER SCIENCE, UNIVERSITY OF TEXAS, AUSTION, USA, [Online] 26 August 2004 (2004-08-26), XP002468343 Retrieved from the Internet: URL: http://web.archive.org/web/20040826233249/www.cs.utexas.edu/users/liuwg/383CProject/final_report.pdf [retrieved on 2008-02-06] cited in the application section 1 section 2, point (1)	1-17, 19-35, 49-51
A		18, 36-48

☒ Further documents are listed in the continuation of Box C.

☒ See patent family annex.

* Special categories of cited documents:

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the International filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the International filing date but later than the priority date claimed

- *T* later document published after the International filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- *&* document member of the same patent family

Date of the actual completion of the International search

11 February 2008

Date of mailing of the International search report

20/02/2008

Name and mailing address of the ISA/
European Patent Office, P.B. 5818 Patentlaan 2
NL - 2280 HV Rijswijk
Tel. (+31-70) 340-2040, Tx. 31 651 epo nl,
